Career Objective

As a passionate and detail-oriented frontend developer, I am seeking an entry-level opportunity where I can apply my skills in HTML, CSS, JavaScript, and modern frameworks like React to build engaging, user-friendly interfaces. I aim to contribute to impactful web experiences while continuously learning and growing with a dynamic and innovative team.

Education

Vignan's Nirula Institute of Technology and Science for Women, Guntur
B.Tech - Computer Science and Engineering- CGPA: 8.54   **Sept 2022 – Expected 2026**

Chaitanya Junior College, Nandigama

Bhashyam EM School, Nandigama
SSC -GPA -8.7   **June 2019 – April 2020**

Coursework/Skills

Data Structures and Algorithms	Web Technology	OOPs Concepts
Database Management System	Operating Systems	Artificial Intelligence

Projects

Restaurant Website *Watch Demo* 🔗 — **Html,CSS, JavaScript** — **2024**   *GitHub* 🔗
- Designed and developed a fully responsive restaurant website featuring immersive video backgrounds, dynamic sliders, scroll-triggered animations, and an interactive menu for enhanced user experience.
- Implemented a 1-click table booking system that streamlined reservations from 5 steps to 2, increasing booking conversions by 40% and improving overall user engagement.

Car Rental Platform *Watch Demo* 🔗 — **Html,CSS, JavaScript** — **2025**   *GitHub* 🔗
- Built a responsive, user-friendly car rental platform for New York, New Jersey, and Connecticut users, integrating dynamic search, advanced filtering (brand, model, budget), detailed vehicle listings to simplify the rental process.
- Enhanced user engagement with interactive UI features like hover effects, animations, smooth transitions, and optimized performance through dynamic content loading across devices.

Web Agency Website *Watch Demo* 🔗 — **Html,Tailwind CSS , JavaScript** — **2024**   *GitHub* 🔗
- Designed and developed a sleek, fully responsive web agency platform showcasing services, skills, projects, and client reviews, with a modern UI built using Tailwind CSS for fast, scalable styling.
- Ensured SEO optimization, fast loading speed, and mobile accessibility while maintaining a clean, modular codebase for easy customization and future scalability.

Internships

IBM SkillsBuild Platform — Machine Learning/AI Intern (Certificate) 🔗   **May 2024 – June 2024**
Created a Synthesis AI project, collaborated in teams to add features, resolve issues, and meet deadlines, while strengthening leadership and teamwork skills over a 3+ month internship.

Infosys Springboard (Paragathi Program) — Intern (Certificate) 🔗   **Dec 2024 – March 2025**
Completed Paragathi Program, gaining industrial skills in AI/ML, web development, and professional development.

Technical Skils

Languages: Python, Java, JavaScript, HTML, CSS, SQL
Developer Tools: VS Code, Figma
Technologies & Frameworks: React.js, Bootstrap, Tailwind CSS, Git, GitHub

Achievements

○ Contributor to **Stylelint**, contributing to its functionality and documentation
○ Microsoft Learn Student Ambassador.
○ Earned 2 Gold and 3 Bronze badge on HackerRank and Solved 100+ Leetcode problems.
